FACULTY OF COMPUTING
UTM Johor Bahru

SECJ 2203: Software Engineering
Semester 01, 2025/2026

Assessment: Leadership Video (6%)

1. **Individual Task**: Reflect on your leadership experience in the Software Engineering course.

2. **Slides and Video**: Create presentation slides (*preferable to use UTM official template attached*) and record a video (**max 5 minutes duration**).

3. **Content Requirements**:

   a. **Introduction**: Briefly introduce yourself and the project background (domain, system, stakeholders, etc.).

   b. **Self-Reflection**: Discuss leadership skills developed during the course projects (Assignments 1–4), addressing the following criteria (*as in rubric page 2*):

      i. **Knowledge and Skills**: Key skills essential for leading team progress and project success.

      ii. **Leadership Qualities**: Critical traits of an effective leader for project success.

   c. **Evidences**: Use suitable examples (e.g., mind maps, eLearning Forums team progress, Padlet KWL/Canva Whiteboard participations, screenshots, etc.) to illustrate your leadership contributions.

   d. **Creativity**: Present creatively with the presenter visible on camera (*Refer below)*

4. **Submission**: Include the video URL (use any platform such as YouTube) in the presentation slides. Then, submit the presentation slides in PDF format via UTM eLearning.
